

Wall Vent J-Block For Faster, Cleaner Installs On All Siding Types

For 4-Inch Wall Vents

Applications

Designed specifically for use with InOvate® DryerWallVent® and FreshVent™ 4-inch terminations, the VentDock™ provides a rigid mounting surface for precise, professional wall vent installations on siding.

Simplifies Installation

The VentDock eliminates the need to cut and frame the mounting area, saving time on the jobsite and streamlining installations for stronger, more consistent results.

Its two-piece telescoping design snaps together securely and adjusts to fit common siding profiles from 5/8" to 1", creating a clean transition from siding to vent.

Quality Construction

Engineered from UV-stabilized high-density polyethylene (HDPE), the VentDock delivers weather-resistant performance for reliable protection against the elements.

Key Benefits

- A seamless transition from siding to vent
- Built-in frame design reduces installation time
- Weep holes help deter water intrusion
- Conceals unfinished siding edges
- Works with all siding types
- Easy to install
